

## WEBSITE ADD-ON

# Let customers **book themselves in** — no more phone tag.

Add online booking to your site, wired into your main call-to-action. Calendar, availability rules, automated confirmations and reminders — with optional payment at the time of booking.

## THE PROBLEM

Bookings come in by phone, get missed, and turn into back-and-forth voicemail. Your calendar is the bottleneck, and no-shows cost you when there's no deposit taken.

## WHAT YOU GET

- **Integrated booking system**  
Cal.com or your existing scheduler wired to your main CTA.
- **Thank-you page + tracking**  
A confirmation page so you can track conversions.
- **Availability + reminders**  
Availability rules, automated confirmations and reminders.
- **Payment on booking (optional)**  
Take a deposit or full payment via your own Stripe.

PRICE <b>+\$2,000</b> add-on	ATTACHES TO <b>Any site</b>	YOUR ACCOUNT <b>Your Stripe</b> in your name
---------------------------------	--------------------------------	---

**Your account, your name:** the merchant account (Stripe or equivalent) is yours. We walk you through connecting it — we don't create or hold it.

**Add booking to your site.**

Book a free 30-minute call and we'll wire it into your main call-to-action.
