

FIXED-PRICE AI PACK · NO DISCOVERY FEE

# Supplier invoices, straight into your system — checked against your rules.

Your invoices, quotes or forms read and written into your accounting or job system, validated against your own rules, AU-hosted, with a review queue for anything the workflow isn't sure about. A document type off your plate — not a pile of raw text.

## THE PROBLEM

A stack of PDFs, scans and attachments gets re-keyed by hand into a spreadsheet or your accounting system. It's slow, it's error-prone, and it's the same shape of task every single day.

## WHAT YOU GET

- **One document type, end-to-end**  
From arrival to structured output.
- **Confidence threshold you control**  
Never writes a low-confidence guess into your records.
- **Checked against your rules**  
Validation the cheap tools don't do — optional price-book match.
- **Extraction to your destination**  
Fields land in your spreadsheet, accounting system or database.
- **Review queue**  
Anything uncertain waits for a person to confirm.
- **AU-hosted, audit-trailed**  
Data stays in Australia by default; every step is logged.

PRICE <b>\$6,500</b> fixed-price	SHIPS IN <b>2–3 weeks</b>	DISCOVERY FEE <b>None</b>
-------------------------------------	------------------------------	------------------------------

**Not included:** more than one document type (each is priced separately); write-back needing a paid API tier on your side (we tell you first); heavily-degraded or hand-scribbled source documents (we flag this honestly at scoping).

**Book it from a free 30-minute call.**

Pre-scoped and fixed-price — no paid discovery sprint first.
