

WEB & MARKETING

Fast sites that get you found — with an **AI content engine** built in.

Clean, mobile-first Next.js sites, findable in Google and readable by AI answer engines. Every build includes the full Brand Pack and the SEO baseline. Add the content and social engines when you want publishing to run itself — on your approval.

THE PROBLEM

A website that no one can find, or a blog that becomes a second job you never do. You want a site that looks real, turns up in local search, and keeps publishing without eating your week.

THE LADDER AND THE ADD-ONS

- **Starter Site — \$5,500**
Up to 5 pages, findable in local search.
- **Ecommerce — from \$9,500**
A real store on a platform you own and can leave.
- **Social Engine — from +\$4,500**
Automated posting, with an optional inbound tier.
- **Authority Site — \$7,500**
Multi-page, schema-driven — the stack this site runs on.
- **Blog Engine — +\$3,000**
Fortnightly posts drafted in your voice, published on your tick.
- **Brand Pack + SEO included**
The full identity kit and search baseline ship with every build.

Honest note: if an off-the-shelf Shopify or Squarespace store genuinely covers what you need, we'll say so and point you there rather than sell a build you don't need.
